RAPID COLLECTION SYSTEMS, INC.

Partnering with
Our Clients
For

Maximum Debt Recovery and Cost Savings

Rapid Collection Systems, Inc. is a well established collection agency and was started in 1991 in Phoenix, Arizona.

The collection department has a combined average of 18 years experience. All RCS collectors complete training and become FDCPA and FCRA compliant.

RCS provides clients with traditional third-party collection services as well as pre charge-off programs, letter generation, credit bureau reporting in addition to a full service litigation unit.

The collection and agency management experience among our current staff is well-versed in both pre and post charge off recovery environments.

The collection industry today is being driven by new information technology and today's successful collectors are tech-savvy, using a more soft touch approach. Debt recovery is now more of a finesse business, according to industry insiders.

RCS also utilizes the most advanced skip-tracing and collection tools available from the internet, credit reporting agencies and other sources.

All assigned accounts are reported to Experian on an ongoing monthly basis, pursuant to the governing laws.

RCS has incorporated a state of the art collection software, known as Lariat Software. This operating system provides some of the most diversified collection software for client, debtor and account maintenance.

One of the critical strengths at RCS comes from their local presence in the Phoenix area. RCS is a well known and respected collection agency not only by the clients and court systems we serve but by the community as a whole.

RCS is a full service agency and will develop Specific Reporting and Collection Programs based on the needs of the client.

Pre and Post Charge Off Programs, Letter and Skip-Tracing Services, Small Balance Projects, Auditing, Custom Reporting, Accounts Receivable Consulting as well as Litigation Services are all available.

We thought we might call to your attention that old Collection Adage "*Past Due Accounts Do Not Get Better with Age.*"

RCS... We're here when you need us...

BUT DON'T WAIT TOO LONG!!!
